Usability
Visual clarity
Responsive experiences
Consistent design systems

PROFILE

Product Designer focused on creating intuitive, visually refined digital experiences. Skilled in UI/UX design, responsive interfaces, design systems, and interaction design, with an emphasis on usability, clarity, and consistent experiences across screens.

SELECTED PROJECTS

Kavara Kavara — Product & Web Design

Designed responsive experiences across homepage, shop, product, and menu pages. Built reusable UI components and interaction-focused patterns for a consistent digital experience.

The Pallet House ZW — E-commerce & Brand Experience

Designed responsive e-commerce layouts focused on product discovery, brand storytelling, and a rustic-modern visual direction.

Personal Portfolio Website

Developing a portfolio that brings together interaction design, visual systems, motion, and case-study storytelling.
